Account Management Features

Revolutionize the way you approach background screening with our visually stunning client portal.

Smart, effective layout and design.

Quickly review common report categories, including the Discrepancy status for possible hits.

Quick search feature allows real-time applicant name searching without leaving home page.

Locate in-progress and completed applicants with ease, using visual guides and status icons.

Order searches from our list of pre-built packages, or customize your own for convenience and flexibility.

Manage your account settings, add and remove users, and access statistics, past invoices, and documents all from your secure portal.

Our client portal puts convenience and ease into the ordering process with innovative web technology.

Simplicity meets flexibility in a revolutionary ordering process.

The screenshot displays the 'Applicant: Create Profile' section of the client portal. It includes a form for entering applicant information, such as name, address, and phone numbers. Below this is the 'Criteria: Select Searches' section, which allows users to choose from various search packages. The 'Select Package' dropdown is set to 'Complete Background Check'. The selected packages are listed as 'County Criminal', 'Instant Criminal', 'Education Verification', 'Past Employment Verification', 'Driving History Report', and 'Credit Report'. A 'Total Search' box shows '\$0.00'. At the bottom, there is a 'New Your Package' section with a table of search options and their costs.

Intuitive workflow makes ordering easy.

Order a complete background check on one page, with simple controls to add, remove, and edit search details, all on the same page!

Choose from convenient pre-built packages, or save your own search groups for easy re-ordering.

Dynamically add and remove searches throughout the entire ordering process.

Our client portal puts convenience and ease into the ordering process with innovative web technology.

Simplicity meets flexibility in a revolutionary ordering process.

The screenshot displays the 'Applicant: Create Profile' and 'Criteria: Select Searches' sections of the SAFE GUARD client portal. The 'Applicant' section includes fields for Name (John), SSN, Date of Birth, and Address. The 'Criteria: Select Searches' section shows a 'Select Package' dropdown and a list of search options: County Criminal (2 Selected), Instant Criminal (1 Selected), Education Verification, Past Employment Verification, Driving History Report, and Credit Report. A 'Total Search' box shows '\$0.00' and an 'Order' button. A 'Show More Searches' link is also visible.

Strong data validation helps ensure accuracy.

System tracks your search price in real time as you add and change search requests.

Upload release forms and other documents at order time to greatly speed up processing.

Order additional searches for an applicant at any time after the fact.

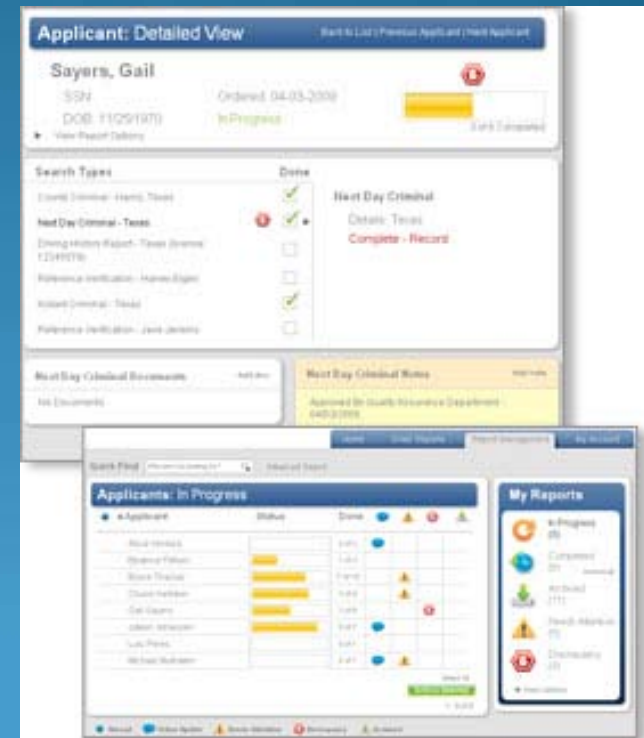

Our client screening portal features an advanced interface and powerful yet intuitive management tools.

Find and manage applicants and reports with ease.

System tracks applicants in progress, completed applicants, those with missing info, and those with hits or discrepancies.

Quickly search for individual applicants by name; system auto-matches first and last names and presents them for quick selection.

Advanced search - find applicants by SSN, DOB, searches ordered, date of order, and more.

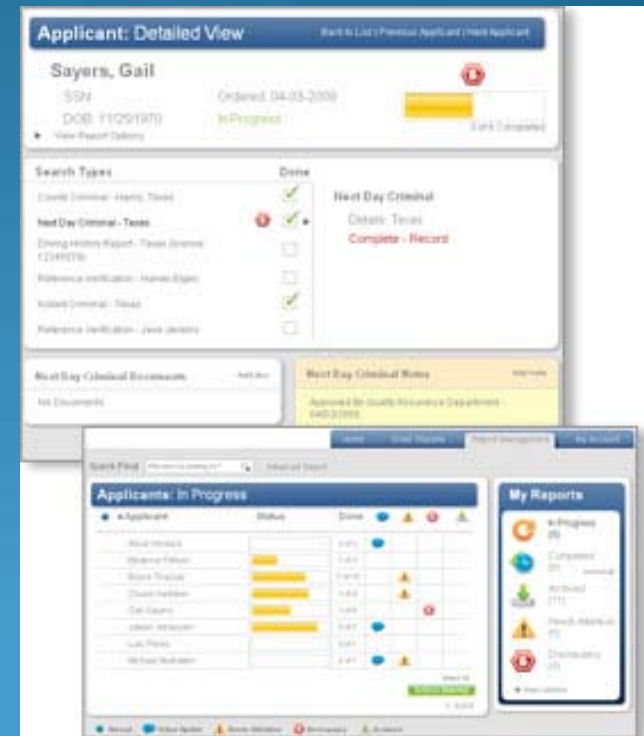

Our client screening portal features an advanced interface and powerful yet intuitive management tools.

Find and manage applicants and reports with ease.

Icons quickly identify applicants with unread searches and status updates, those that need additional info, and applicants with discrepancies.

Applicants and status updates are auto-marked as read - no need for an Inbox or manual completion.

Easy-to-read report details allow you to quickly find detailed info, notes, documents, and full reports.

Go beyond ordering and reports - simplify HR management and tap into powerful tools.

Our client module gives you access to features that streamline the whole screening experience.

Modify email and fax info, notification preferences, and company info in real time.

Sign up for regular screening statistics emails, giving a comprehensive summary of screening info on a daily, weekly, or monthly basis.

The screenshot displays the SAFE GUARD client module interface. The top navigation bar includes "Home", "Order System", "Report Management", and "My Account". The main content area is divided into several sections:

- User Info: Add User**: A form for adding a new user, including fields for "User Name" and "Email Address".
- User Options**: A section with checkboxes for "Class", "Check User Reports", "Check Results History", "Check Applicant for All User Reports", "Check Email", "Check Faxing", and "Check Billing".
- Screening Statistics Report**: A section with radio buttons for "Order Name", "Critical Date (Default)", "Critical Date", and "Phone Status".
- Sending Results**: A section with a "Send" button.

On the right side, there is a vertical sidebar with icons and labels for "Profile", "User Info", "Accounting", "Billing", and "Reports".

Overlaid on the bottom right is a "Screening Statistics: Report" window titled "Screening Program Effectiveness" for the period "11/1/2009 - 8/15/2009". The report contains the following data:

Items	Details
Subjects Screened	11
Avg Searches per Subject Report	3.64
Total Searches Performed	51
Avg Price per Subject Report	\$27.20
Avg Price Per Search	\$7.89
% Subjects with Criminal Records	14.29 %
Number of Subjects with Criminal Records	2
% Subjects with Unresolvable Results	14.29 %
Number of Unresolvable Results	2
% Subjects with Positive Drug Test	4 %
Number of Drug Tests with Positive Results	0
Avg Time Taken per Completed Subject Report Item	\$25.64
Total Price	\$382.98

Go beyond ordering and reports - simplify HR management and tap into powerful tools.

Our client module gives you access to features that streamline the whole screening experience.

View past invoices online, pay your bill online, and download useful documents such as release forms from your own secure site.

Administrative users can add, remove, and manage other users online.

Permissions management allows you to limit specific user access as needed.
