

## Applicant self-screening made simple.

Candidate Self-Screening (CSS-SwiftHire) is a brand-new client tool offered to you by SafeGuard.

Using CSS-SwiftHire, you can send screening requests directly to applicants, rather than having to key in applicant information yourself.

CSS-SwiftHire is **built right into your client ordering module** and comes with all these benefits:

Invite applicants to self-screen via email tool, track progress, and send automatic reminders.

Customize the email invitations, instructions, and reminder emails.

CSS-SwiftHire is **built right into your client ordering module** and comes with all these benefits:

Set up a review step for all submissions, or have the system convert submissions directly into orders

Self-payment option for applicants is perfect for contractor or volunteer self-screening
